Question 1
Have you used BalanceOil as recommended the last 120 days?
 Yes No

Question 2
Have you used BalanceShake as recommended the last 120 days?
 Yes No

Question 3
Have you used any other Omega-3 product in the last 120 days?
 Yes No

Why should I do this?
It gives us important knowledge when interpreting your score. In the end we will be able to give you even more customized recommendation.

NOTE: If you can't go online when together with your customer/partner you may use the form on the back of this paper so you can register the info later when your customer should access their result.

Why is it important that I fill this out?

We are constantly developing our Balance products. For this purpose we are analyzing the Balance test results but in combination with: age, sex, weight and height. This is the reason we prior had a paper questionnaire in the BalanceTest.

Today we ask the same questions directly on the website before a person can access their test result. This ensures that the information is accurate (and just as anonymous as before). The best is if you guide your new customers and partners to fill out the data on the web at once.

Thank you for your cooperation!
